PROFESSIONAL SUMMARY

Recent Bachelor of Science in Information Technology graduate from the University of Southeastern Philippines (USeP) with experience in software development, IT support, and operations management. Most recently served as a Full-Stack Developer at 082 Solutions, contributing to web and mobile application development. Previously accumulated two years of experience in the BPO industry as an Assistant Team Leader, Trainer, Quality Analyst, and IT Support Specialist, developing strong leadership, troubleshooting, and process improvement skills.

Completed an internship with DSWD Regional Office XI, where I assisted in the development of a front-end digital platform. Possess hands-on experience in IT infrastructure, including hardware installation, operating system deployment, workstation setup, network cabling, and technical support. Successfully deployed and configured more than 30 workstation environments, ensuring performance, reliability, and operational readiness. Combining technical expertise with leadership experience, I am eager to contribute to maintaining system reliability, supporting end-users, and enhancing daily IT operations.
